*Essence
of
nature*

Tripura Stones is the most reliable and trusted company in Marble Industry for both Marble and Granite in India. To assure about the quality we check the products thoroughly before dispatching the products to our clients. Our mission is to provide the best quality products to our clients and hence we never compromise in quality. We believe that business relations can last long with quality products. The deliveries of the bulky orders are made on a timely basis with no damage to the products.

*We are
at work*

We are equipped with an excellent infrastructure that is spread over a large area and segregated into various sections to enable the smooth conduct of assignments. The latest hi-tech Italian machines have been installed to take care of various manufacturing and processing activities.

The firm has taken efforts to update the knowledge of the workmen with the changing trends from time to time. The sophisticated infrastructure installed has provided us a strategic edge over our competitors and help us to deliver the consignments within the promised time frame.

Our Infrastructure

Quality Assurance
 We work directly with our clients to craft customized quality management systems and technical-level QA activities so that they can proactively identify any business risk and take appropriate steps to minimize or control it.

At the management system level, our strategic planning provides the architecture to improve operational efficiency and to achieve timely delivery of products and services. We also help organizations develop the steps and tools required to make sound environmental decisions.

Why Us?

We are engaged in serving the client's needs with utmost dedication. Our client-focused business philosophies make us accountable to be on the customer's side. Due to our skilled professionals in this industry and clients centric approach, we have been able to be the prime choice of our clients.

We are appreciated for the good quality of pebble and stone ornaments and artefacts that is offered by us to the clients. Our products are offered at the most reasonable and competitive prices.
